SYMPOSIUM: DALÍ IN DIALOGUE
SAT 13 JUN, 2009

Salvador Dalí: Liquid Desire is the first comprehensive retrospective of the work of Salvador Dalí to be staged in Australia and comprises more than 200 works in all media — painting, drawing, watercolour, etchings, sculpture, fashion, jewellery, cinema and photography. It traces the genius of Dalí from his earliest years as an exceptionally talented 14-year-old, to the final majestic paintings created when the artist was in his 70s.

A range of international and local speakers present a fascinating array of papers on this quintessential 20th century artistic genius.
